TRANSFORM EMPOWER

Providing community projects that change lives through education & mentoring, health & nutrition and livelihood & skills training.

www.p-c-f.org

WHO WE ARE

PCF is a grass roots UK registered charity, our main beneficiaries live in the worst urban slums in the Philippines.

We began our work in 2002 and our successes have come from working closely with and listening to our beneficiaries which has enabled us to tackle the root of their problems with innovative solutions, and not just providing short term relief.

WHAT WE DO

We passionately believe in providing sustainable opportunities so that our beneficiaries can help themselves and their families out of poverty through the acquisition of education and mentoring, livelihood and skills training and our holistic programmes. We strive to make a difference to those who are in the direst of circumstances.

PCF funds and runs our own education and mentoring, livelihood and skills training, health and nutrition community programmes. We believe in seeing the possibility in everything and fighting for the possibility in everyone.

Community Education & Mentoring

This unique programme is for children who have dropped out from mainstream education due to lack of financial and/or emotional support. The children are placed together in groups of 20 with 2 parent volunteers. Each child receives school books & supplies, uniforms, shoes, transportation fees and daily nutritious lunch boxes as well as extra tuition, life skills and mentoring and out of school activities.

Community Livelihood & Skills Training

Adults are trained to become artisans making beautiful handmade upcycled products using ring pulls from canned drinks, glossy magazines, men's ties and sandals and shoes made from aeroplane tyres

providing them with a sustainable income. 100% of the profit from product sales goes back into PCF programmes. p-c-f.org/shop

Community Health

PCF's walk in community health clinic provides access to life saving healthcare for our beneficiaries. 25 members of the community have been trained in basic health care to advise neighbours in urgent need to visit the clinic.

Community Nutrition

Our community kitchen provides nutritious meals for students in our education programme, vulnerable adults and children and emergency food parcels containing fresh fruit and vegetables, rice and some canned goods.
